NUR HEUTE | 04.09.2022

**20%** auf SAMSUNG Tab S8 Ultra**20%** auf Produkte von HP

In this exercise our priority is creating main layouts and applying necessary responsive layouts and styles.

First of all you need to use flex layouts to create a responsive webpage.

There are three break points: 992px, 768px and 576px.

NUR HEUTE | 04.09.2022

20% auf SAMSUNG Tab S8 Ultra

20% auf Produkte von HP

As you see in the first breakpoint (992px)

- The sidebar(item category menu) will disappear.
- Item contents will cover all width.
- Also logo of Inter Discount will get more smaller (120px*40px)
- The **sortiment** block will be removed.
- The **Menu** block will be placed instead of sortiment.

20% auf Produkte von HP

The second breakpoint will be at 778px.

- The logo of Inter Discount will be altered.
- In the content field, there would be one item in a line.
- The navigation bar which is at the top will disappear.

20% auf Produkte von HP

The third breakpoint will be at 576px.

- In the previous pictures you will see a magnifier icon inside the search input. At this breakpoint you need to remove this icon.

- Later, you need to change the search (suchen) button as it is seen in the picture.

- Lastly, you need to change the layouts of the menu items and icons.

Mobile View

Your page has to be responsive. The responsiveness should last till 300px.

Good luck!
